

I turn off my modem every 2-3 months, so it's not a modem. . For example, my friends who live in a richer or Caucasian part of the city, www.ed.gov/en/central/ What is EDGE? Haven't heard of this. EDGE is like 3G, but not yet 3G+. When 3G becomes 3G+, this will be EDGE. Each operator, of course, is different. 3G+, as I understand it, is UMTS. In general, this is what it was before, but a little bit better. In general, it's the same as GPRS, only without any Loopback networks and other things. And the speed will be higher. That is, it's the same as if GPRS was 10 megabits, but the package itself is 10 times faster.
