with a group of supporting small software solutions for forensic ... Chip-Off, Cellebrite UFED Physical Analyzer, Oxygen, Forensics Suite, Paraben Device Seizure.... All the presented solutions are still available for purchase through the official Microsoft service. Microsoft also announced two new services for the analysis and examination of digital forensic information. The first will be SearchForge service, which provides access to a cloud-based database for searching images, videos and emails. In addition, with SearchForge, experts can now extract origin and content data from files. ...
