I'll tell you in detail how to create a character, how to access the world, and touch on the peculiarities of playing in different roles. I will show how to create your own characters and how to level them up in the game, how to do quests and how to level up skills. The guide is designed for newbies, as well as for those who have already tried their hand at different roles, but did not understand the basic principles of the game. During the guide I will help you to choose what you want to become in the game, how to complete the quests and what you need to pay more time to become a good hero. The walkthrough will be divided into several stages: creating a character, choosing a specialization, getting new levels, pumping skills.
