Integrate TimeTrek with your favorite calendar program and you are all set. TimeTrek works with all major online and desktop calendar programs, including Microsoft Outlook, Apple iCal, Google Calendar, and Sunbird.

Citadel Links - Citadel Links is a web browser extension that allows you to easily access any site from the Citadel address bar and also displays related sites, making searching and navigating the web far more efficient.

Citadel Description: Citadel Links is a browser extension for Google Chrome and Mozilla Firefox. What it does: You are able to access any website in the same style as you would normally access any web site by just typing its address directly in to your address bar. When accessing a site through Citadel, the related site links will also be displayed in the Citadel bar.

Works with: Citadel Links and Citadel

Citadel is a web browser extension for Google Chrome and Mozilla Firefox that works with the Citadel address bar. It provides a customizable web search and related site feature. Users of the extension are provided the ability to directly type a web address to the Citadel address bar and access it as if it were any other web site. Related sites will also be displayed in the Citadel address bar. These sites can be customized by the user and include favorite sites, related sites, and sites from any url address.

Features - Multiple methods of inclusion. - Exclude from search. - Minimum of three sites to be displayed per link. - Filter by website. - Site preferences to be saved to the user's Chrome Profile. - Profile preferences to be saved to the user's Firefox Profile. - Run in the background. - Anonymously collected usage stats are displayed for the extension.

Bookmarklet - Bookmarklet by Jumsoft gives you the ability to make any web browser's address bar your bookmark toolbar by adding a clickable bookmarklet that will allow you to bookmark a site as if it were a normal bookmark. Bookmarklets can be customized by the user for their needs and can include web

What's New in the Timetrek?

TimeTrek is a simple time tracking application with an easy to use interface. Time and expenses can be tracked on a per-project basis by client or company. Generate time tracking reports that can be used to track your expenses towards IRS compliance.

About Fatcow: Fatcow is a web hosting service that was specifically designed to make it easy to own and operate your own web hosting service. Fatcow provides only the highest quality web hosting services based on Open Source technologies and created by professional webmasters and individuals with experience in the web hosting industry. Fatcow's service is 100% reseller: We don't own or operate any web hosting servers and the service is completely reseller oriented. You can choose the plan that's right for you and your business: Start with a free account to host a single site and increase the size of your plan as you increase the traffic to your site. You can focus on running your business, while Fatcow takes care of the hosting for you. Here are just a few reasons why other web hosting services can't offer the same level of quality and service that Fatcow can!
