

August 5, 2016 - 2. Launch Advanced Uninstaller PRO. It is recommended to take some time to admire the design of the program and the number of tools available. Extended. net is one of the most powerful and functional free uninstallers. 3. Disable all unnecessary plugins, services and browser extensions. 4. Check the settings, disable "Phishing Protection" in the browser. 5. Check your internet connection settings. In order to make sure that the connection is working correctly and securely, open any page of the site and check if your address is displayed correctly on it. 6. Open "Tools" and select "Settings". 7. Check "Clear history".
