System Requirements For MiTweak-XP:

The main purpose of Warlords of Draenor has always been to improve the game for the very people who are most affected by the bug that is affecting many of the wow players out there. We have tried to create a game that is playable on the lowest spec systems that could run the game. In order to ensure that players have a great experience on these older systems, Warlords of Draenor provides the ability for players to play the game with several old graphics options that will allow them to get into the game without requiring a dramatic performance upgrade. One of the most important goals
