Read moreNow you will find instructions on how to connect VPN on a computer with Windows 7, 8, 10. To connect a VPN, you will need to perform the following steps: Right-click on the Internet connection shortcut and select "properties". In the window that opens, go to the "Advanced" tab. Then go to the tab "network". Press the "properties" button in the "network status" window. In the "IP address" field enter the address that is written on the network card itself and click on "properties". This will open the "IP address properties" window. In the "Subnet Mask" field, enter the value 255.255.255.0. In the next field, "Gateway", enter the IP address of your router. Click on "OK" and "OK. Then go to the "Internet Protocol (TCP/IP)" tab and click on the "properties" button. This will open the

"internet protocol (TCP/IP) properties" window.
