One more question, is there anyway i can directly register my IP on this site? Or any suggestion to use this instead? A: If a particular page that you're viewing is using an iFrame containing a tracker, you can generally just remove it from the page (the iFrame) and be done with it. If it's a tracker in a page that's opened in an iframe, the only way around this is to add the offending HTML code to your web server (or use a domain that cannot be scanned) so that the page is opened by a client that is not a victim of a particular web site owner. Note that if the iFrame is javascript, a javascript function which can only be loaded from a specific domain, changing the domain being used to load the JS might stop a tracker from loading. Note also that a web browser including a web browser extension like Chrome's "NoScript" can prevent JavaScript from being loaded from pages. Note that you should really remove the iFrame as much as possible. Note that you can use a browser like Tor to connect to a site and block it. The above point is particularly true for you, because in your scenario, the site you're

Its not working. Please help me to get my pages back. A: I had the same issue. My fix was to add this at the top of the file: Options +FollowSymlinks -MultiViews RewriteEngine On RewriteBase / RewriteCond %{REQUEST_FILENAME}!-f RewriteCond %{REQUEST_FILENAME}!-d RewriteCond %{REQUEST_FILENAME}!-l RewriteRule ^(.*)$ index.php?/$1 [QSA,L] The problem comes from the fact that your index.php file makes a redirect which then redirects to /about/ which is not found. Party of National Reconstruction The Party of National Reconstruction (Parti de la Reconstruction Nationale, PNR) was a political party in Saint-Domingue (present-day Haiti), founded by Charles Radière and Pierre-Marie Barbarin in October 1807. The party was formed from the white officers and more moderate plantation owners in the Toulouges area, who were opposed to the government of Christophe. Christophe outlawed the party in May 1808. The party was unsuccessful in the Legislative Council elections in 1808 and 1809. After the Black Jacobins seized power in March 1809, Radière and Barbarin were arrested. They were guillotined on 3 January 1810. References Category:Political parties in Saint-Domingue Category:Defunct political parties in HaitiQ: Getting an object type from a generic type? So I have a method that looks something like this: // I think this is the method signature that I want public List Retrieve(IEnumerable MyEnum) The idea of it is that the method simply gets data from an enumerable, returns it as a list of the correct type, etc. The problem is that I can't see how to use generics here. I want the generic to be inferable from T. The initial idea I had was something like this, but I can't work out how to do it: public List Retrieve(IEnumerable) > MyEnum)
