Features of Photoshop The tools that you can use in Photoshop are: Vector Image Editing The standard vector tools in Photoshop allow you to draw shapes, paths, and lines by hand or with the pen tool. You can use these tools in Photoshop to add objects to your image, delete objects, and edit them. The Vector Shape Tools have several different types that can be used. For example, the Pen tool is most often used to create lines and curved objects, the Fuzzy Pen tool is useful for creating geometric shapes such as circles, squares, and rectangles, and the Polygon tool is useful for complex shapes like hexagons and triangles. The Pencil tool can be used to create traditional drawing outlines. The Freeform tools enables you to create shapes with the mouse or stylus. Clipping Mask A clipping mask is a type of transparency that you can use in Photoshop to work with entire layers or specific areas of layers. A clipping mask is most often used to mask or hide elements in an image. Photoshop doesn't actually create clips or masks. Instead, Photoshop adds a transparency channel to your image that you can use to hide areas of the image. Paths Paths are collections of shapes that you can use to draw lines, circles, bezier curves, and elliptical curves. Paths are useful to create the element of a line art drawing. NEWARK – Robert Frost once wrote: “He who hastes to be rich may get a wealth, but will surely miss what makes life worth living.” However, some of New Jersey’s greatest authors have made it abundantly clear that their goal is to better the lives of readers. “My goal is not to just be a writer, but to be a beloved writer,” said Paul Auster, now living in North Carolina. “The kindness of people is always amazing to me. I never expected it at all.” Formed in 2003 as an annual literary journal, now the New Jersey Literary Festival holds more than 70 events from October through April, featuring readings, staged readings, workshops, panel discussions, book signings, and other events. This year’s festival kicks off Friday with the opening of an exhibit of the work of The Black Madonna Co., featuring the works of 12 authors, including Tom Hanks, Van Morrison, and comedian Bill Murray. The festival will run through April 25 at venues throughout the state. “Every year we try to meet new and interesting authors. Writers are just people, and we get to sit and talk with them, get to share in their thoughts and feelings,” said festival founder Karl Kacher, a retired judge and former president of the American Bar Association. “We have come to a point in this country that writing is extremely important. Without writers, we wouldn’t have the words to describe the things that happen in our lives.” Author Robert Poliquin Highlighting the festival are two major authors who have made notable contributions to literature. New Jersey’s Robert Poliquin, who is also the State Librarian of New Jersey, will lead a reading and discussion of his memoir “Red Dragonfly” and his new novel “Bath.” “Bath,” the final book in Poliquin’s acclaimed “Down River” trilogy, follows the life of Agnes Evans, who is released from a jail in the first book, but who, along with her family, faces an uncertain future, which leads to the old mill and home of her youth where she must decide whether to return for a reunion. “Red Dragonfly” looks at the horrific crimes committed by Mary Phagan, the first female to be hired as a full
