A top-down shmup featuring some of the most famous enemies from the Mega Drive/Genesis era. About Mega Drive-to-Genesis Shmup When the Mega Drive first came out in 1989, it was the greatest console there had ever been. At the time there were many great, unique, and addicting games on this system. One of these games was Mega Drive-to-Genesis Shmup (aka MGS Shmup). This game was unique because it was a top-down shmup. It was also unusual because it was a mix of 8 and 16 bit systems. A lot of fans still play this game today! Help out players to shoot down various enemies including fairies, bears, snakes, aliens, and more. Manage your firepower by changing weapons and your shield to destroy enemies. Shoot the eight birdies that come in waves to power up your beam attack. By connecting to the Internet, this game also includes online play, allowing two players to play together at the same time. Special Features of the Mega Drive-to-Genesis Shmup: Start by picking your favorite enemy type. Each enemy has their own skills and weaknesses that you can learn and use to defeat them. Control and power up various units including bombs, lasers, and missiles to reach different weapons. Shoot the eight birdies that fly in waves to power up the beam attack. What's new in Betrayal At Club Low:

's debut album at the Parisian venue reflected a new mindset, a chinoiserie maturity that would usher in a dawn of black innovation, in the vein of Erykah Badu and R&B purists like Lauryn Hill. But the album never quite caught on. After internal struggles with Warner Music — an ostensibly outsized media company — the day after the album was released — which were publicized — New York City hip-hop duo Cash Money Records purchased a majority stake in Low's future record label's assets. The hard — even bitter — reality of the circumstance was that Kanye West, who'd helped deliver the platinum, 58,000-unit debut for the undercapitalized Quannum label, which had Records, Inc. as its parent company and Low's primary backers, had turned a blind eye to the deal between 2 Cent and the upstart label. West and Quannum co-owner Damon Dash's budding collaborative relationship was fully on display, of course. Dash was then a member of Kanye's G.O.O.D. Music, along with fellow former Roc-A-Fella Records people and Kanye collaborator, Ty Ty. The upcoming "Paper Man: A Love Story" digs a little deeper into early working-class black America. It's a look into a now largely forgotten terrain. By 2018, the civil rights movement was 50 years removed from Selma, and almost 20 years past a classic reconciliation between the two surviving brothers after they collectively shared the No. 1 spot on the Billboard 200. Low, on the other hand, might have just crossed into the mainstream; its first features are an in-your-face backlash to Black Lives Matter, and its second might be about black feminism. (The artist still has no plans to allow the label to pay her royalties or distribute profits.) One of the album's more controversial songs is #Ain'tGonnaNameNothinUp, a firing satirical take on Eminem, whose socially aware lyrics and embrace of pop culture and activism had started to resonate. The #WeGotThis project was almost a decade in the making. With its 10th anniversary passing in December 2018, and a headlining slot at SXSW 2019, R&B star Jeremih is trying to pick up the pieces of an album that could have been the next Kendrick Lamar.
