The game also features a new Player Impact Visuals (PIV) engine, which is powered by a new depth-of-field system, new lighting and a new motion capture capture system that uses motion-captured skin markers rather than GPS-stamped on-screen markings. PIV visually reacts to players in game and allows creators to customize and vary them accordingly. Players can engage in a variety of animations including tackling, blocking, swinging an arm or kicking the ball. PIV can be triggered through real-life player animations, in-game actions, or a combination of both. Developed in partnership with acclaimed film director Guillermo del Toro, “Pan’s Labyrinth” is a dark fairy tale loosely based on author M. C. Escher’s book of the same name. Set in a surreal post-apocalyptic world, we follow seven-year-old Ofelia as she discovers her destiny. The film reunites del Toro with filmmaker of the past, including “Pan’s Labyrinth” and “Hellboy.” “The Hobbit: The Battle of the Five Armies” opens December 14 in the UK and on December 13 in U.S. theaters. Pan’s Labyrinth, which will be the fifth directorial effort from Guillermo Del Toro, has become an enormously influential and well-liked movie that encapsulates many of the themes that he’s explored in his other work. It is a film that feels both classic and current at the same time, very much in line with the best of his work. The movie in some ways is like the story of the film itself, as it truly feels like something from another era. It is set in another world, but it feels not too removed from our own—the dwarves and the fairies are all real beings, characters with stories and motivations that we can understand and relate to. Del Toro has said that one of the greatest things about the movie is that it is not an allegory or even a parable—it is real and, more importantly, it exists in the real world we know. This explains the presence of the pan flute, which is something we all know and something that we all face. So in what sense is this story of the film? And how does it work? And most importantly, what is it doing—and what does it offer? There are many things
