Ravindra Jadeja and Hardik Pandya will not be able to play in the World Cup, but that does not mean India will go with a depleted group next month as suggested by some. While Pandya did not recover in time for Sunday's ODI in Indore, coach Ravi Shastri said Jadeja is not yet ready to play Test cricket. "Pandya will not play in the ODI, Pandya has got a concussion. That is why he will not be fit for the World Cup. He will undergo a scan to check the injury," Shastri said. Pandya's inclusion in the Indian squad was strongly opposed by several players and administrators in an intense debate on social media. The cricketer himself was not sure about whether he would return to the national team. Pandya was not even on the standby list, with the list of the 11 players only a couple of days before the limited-overs series. Pandya and Jadeja were dropped from the Test team after their first-day-wicket turn proved costly in the Lord's Test against England. Pandya had been dropped in the preceding ODI series. Shastri said Jasprit Bumrah will replace Jadeja for the World Cup but the all-rounder was unsure about his inclusion. "I don't know. The last two ODIs, Jadeja has done well. This Test series was more important for Bumrah. But Bumrah has the ability to use his full range of deliveries," Pandya said. Pandya, however, refused to answer if he was happy with the drop. "I don't think to talk about other team, what they can't do," Pandya said. Shastri said the squad selected would be effective enough. "Many people said the selection for World Cup is weak. But that doesn't happen. This is the best XI. In the last two one-dayers, we were never at 80 for five and we 595f342e71
