**What's new:**

Fun You awake to find yourself on an unknown vessel. You are surrounded by mysterious and unseen monsters, it is dark and you can't see very far. Panic fills your brain as a sense of terror runs through you. You are totally helpless against these creatures. Are they hostile? Are they friendly? You just don't know. Fortunately for you it is not yet too late to escape. Grim Quest is an oldschool roleplaying game similar to Dungeons & Dragons. It offers an extensive system of skills and attacks as well as offensive and defensive magic for the player to take advantage of and to use against the player's opponents. The player character can either be a young adult or a toddler, and the only way to lose is if the player runs out of Charisma points. You start with a certain number of attractiveness points which have to be used to buy new clothes (or upgrades), weapons, shields, items, weapons and skills from the vendors on the ship. The amount and quality of equipment depends on your Charisma level and attractiveness. During the game, you and your opponents try to avoid each others' attacks, and to take advantage of your own attacks, through reasoning (Pratyeka Buddhi), by manipulating others (Karmendriya Buddhi), and through meditation (Jnana Buddhi). Your opponents will at times make mistakes which can be capitalised on through these purposes or through the use of magic. Magic is a fairly lengthy and complicated process which you have to learn, in order to cast spells and preserve the magical equipment yourself. Grim Quest is a quick and easy game to play. There are no classes as in oldschool (dungeon) RPGs. However, you are free to choose which spells and magic you use, which equipment you wear and equip, and which items you buy at the magic shops. That said, magic is a powerful and unique part of the game. Spells do cost more but have more spectacular effects, as well as being more involved, in the process of casting and using them. If you're set on finding your way through, and do think you might want to learn more about it as it is the basis of most RPGs, a booklet with all the rules, guidelines and information is available for you to download and download (or get mailed to you) free of charge from [www.grimquest.com](http://www.grimquest.com) Our latest from the Earl of Bexley. E:B is a high fantasy campaign set in

The definition of a TANE game is a game that takes place in Japan and include trains, of course! TANE is both passionate about quality role-playing games in Japan and trains. \*\*\*\*\* You are TANE. It's your dream come true. You were a simple track worker when you decided to become a railway porter. All you wanted to do was run trains, and you never asked for anything more. As time goes by, you get invited to join the railway mafia, and you also find out that you are in the order of things. It was not so hard to make your way up, but it's quite a job to get where you are now. You have to deal with drugs, guns, and lots of violence, and suddenly someone named the BLACK CLOUD is going after you. You know you have to fight for what you want. You get stronger to keep your dream alive. And you also find out that there's more. In a secret passage in the basement of the old building, there is a secret that you haven't found yet. You like trains, right? Then you can't miss this track game. A train is waiting for you! \*\*\*\*\* A long time ago, there was a boy. The boy was small and cute, but he had a fiery personality. He was always talking about trains. He loved railways so much that he wanted to create a world where everyone could share the passion for trains. It was not so easy to talk to people back then, so he decided to create a game where they could understand him. In that time, he decided to create this game, and its name was "Train Mania." It would be nice if you could get an invite for this game, right? If you could make it through the whole game, you would even have the option to become one of the characters from Train Mania! Because it's the greatest adventure you've ever played. Train Mania is a rail simulation game where you play as a railway porter. You are a railway porter, right? You are the hero of a train game. You work on trains with the best. You work for the commuters who love trains. There is a human, not an AI.
