Order of Battle: Endsieg brings the battle to the edge of the battlefield. In the summer of 1943 the German Wehrmacht was fighting on two fronts: at Kursk and the Eastern Front, and on the Italian front. In the west the Allies had already launched their campaign to liberate Western Europe from German occupation. In the summer of 1944 all the forces of the German Wehrmacht were gathered and ready to make a final great effort. The situation seemed ripe for a victorious Germany, but it was not to be so. In April 1944 Hitler ordered a major counter-offensive in the Ardennes, called Operation Spring Awakening. By the end of July the Allies had successfully defended their gains and the Allied offensive on the Western front was unstoppable. At the end of 1943 the German war machine was on the verge of collapse. But in May 1944 the bloody aftermath of Operation Blau was decided by the Battle of Kursk. And in the autumn of 1944 the balance shifted as the Allies were about to announce the first victory of the Second World War, the liberation of Western Europe. It was only one more month until the invasion of Germany and the end of the Third Reich. You are Germany, commander of the Wehrmacht. In the summer of 1944 the Allied forces were trying to liberate their allies from Nazi occupation. But Germany is still standing and desperately trying to push back the invaders, lead the war to victory, and save what's left of its exhausted troops. Order of Battle: Endsieg promises the most historically accurate combat experience on the PC and Games for PC platform. Order of Battle: Endsieg includes 15 scenarios set in 10 different locations, which correspond to the following theaters: • Operation Suvorov (Kursk-Balaklava): begins the campaign in the east, where the Wehrmacht has to defeat the Soviet forces in the winter of 1943. • Operation Cobra (Vitebsk-Kursk): covers the moment right after the battle of Kursk. • Operation Spring Awakening (Voronezh): covers the German counter-offensive in the Ardennes in the autumn of 1944. • Operation Fischreiher (Leningrad-Novgorod): begins the campaign to liberate the city of Leningrad in early 1944. • Operation Tanit (Seelow Heights): covers the Battle of the Seelow Heights in spring 1945. • Operation Veritable (Italy): covers the campaign

A.D. 1500 – after 1540) was the paramount chief of the eastern Solomon Islands from as early as about 1540 until after 1560, when he was deposed by the visit of the Spanish explorer Ferdinand Magellan. Eruera was one of the last to oppose the coming of the Spanish to the area. The Spaniards, who initially came to the islands in 1526-1527, finally captured the capital of the eastern Solomon Islands in 1542. However, Eruera and most of his people resisted the Spanish until 1560, when Magellan, in 1551-1552, landed at Tanna (on the island of Vanuatu) and made contact with the local islanders. Eruera was a Sambu man, and the Sambos, who were a sub-group of the Ellice Islands (or Solomons) people, were the largest tribe on Tanna. As Magellan's expedition journeyed further north, and became more well-known to others, it became clear that the eastern Solomon Islands were indeed an independent state. **, Inventor of New Ideas Happy Hour Entertainment Network (HHEN.com) is an integral part of the HUBE Studios web site. HHEN.com runs a variety of different competitions, allows HUBE members to submit their own music, and also supports the creation and distribution of videos. The HUBE stage is one of the many parts of HHEN.com that shows off HUBE's talent. The site has a plethora of features, and now we can add an "hourly" element to the mix! THE HOUR HUBE is giving members who log in during the hour on January 11, from 6:01am to 6:59am EST on a certain song or video, the opportunity to have a dance off performed with the HUBE Stage! Do you have a song or video that was uploaded onto HHEN.com in the HHEN archives? If so, simply go to the HHEN.com website on January 11th, 6:01am to 6:59am EST. Then log in at the top left (symbolizing "the door") and look for all your favorite artists in the HUBE section and click on their name. For those who don't know, the HUBE studio has an ALLSTAR section where all of our members can get together and collaborate on their career or personal projects. In this instance, we want to see if the HUBE community has a hit in the archives or if we can uncover one by playing music between certain hours. This is only for that one hour, so don't worry if your song or video is deleted. If you go to the HUBE website and it says "Saved searches deleted" then it means you've already been deleted when HHEN runs the competition at 6:01am. Nonetheless, we can still see what you've gone and created. The feeling is pretty great, especially when you know what it takes to hit the top with hit songs, but even though it is a competition, we feel that the chance of getting a single seen on TV or made popular is honestly your biggest competition. The success of music artists is to expose people to their work or whatever it is that you're doing at that point in time. The opportunity doesn't happen that often and we wanted to give that chance to everyone. Therefore, if you haven**
