DescriptionAn electronic version of a popular board game, this game puts players in the shoes of a fighter attempting to survive and thrive in a wild, forested environment. The player must first explore the land, defeating every enemy and even capturing and housing his own cute little pet, and then, when the bough breaks, you must fight to the finish and make your way to the next stage. The controls are tight and responsive, the music and art are charming and the humor spot on. A new addition is the "Retro Arcade Mode," which allows players to play from a 2.5" disc, and play the game using the gamepad of their own choice. In 2011, we at the Center for American Progress and our friends at the Equality Forum made a bet: we said that by 2016 we would educate and build new support systems for LGBT seniors, whom many Americans simply don't see. the Accessible ADE Project, which seeks to change attitudes and practices that affect LGBT seniors. This coming July, LGBT seniors will celebrate 50 years of having broken the sexual and identity barriers that have confined the LGBT community for so long.
