- There are five main weapons available in this game: projectile, shotgun, pistol, rifle and laser. Every weapon has two types: the regular version and the tactical version. - The projectile weapon shoots a soft round that can be used as a pistol or shotgun, the rifle is a powerful but slow round similar to a laser or pistol that can also be used for close combat and the shotgun is a powerful beam that can be used to clear rooms quickly. - Tactical weapons are the upgrades or enhancements of the regular weapons. They are enhanced to use special ammunition, scopes for the rifle or rifle attachment upgrades. There are also a few tactical weapons. - To reload you hold the weapon, X is reload and directional buttons change the weapon and hold for a second to change position of the weapon. - There is only a maximum of eight weapons at a time, and they are bound to a weapon holster. - The Combat Cam is to view the area in 3D. - The Combat Cam will destroy everything in view, it has a built-in limited ammunition. - Other Cam available: binocular, RoverCam. - RoverCam is a weapons scanner and will scan the area automatically. It works like a radar scanner, with a regular screen and a blue screen. - This helps finding the alien with the device, as if it emits a beam it will show an extra bright blue. - Deploy the RoverCam in areas with intense visibility to help you as a spotter. - When the device is activated, it shows on the screen of the nearby cam a fluorescent blue color. - When the device goes off, even when the cam is not, the combat cam will show an extra bright blue on the screen. - It is located in the back of the combat cam, somewhere in the center. - You can focus on where you want with the RoverCam. - With the use of the RoverCam it allows the player to detect tracks of aliens and observe their surroundings. - The RoverCam can be used simultaneously as other cam in close range. - At the end of the mission a cam will be at random located in the level, it is activated by pressing the right direction button. - When activated, the cam shows the player a picture of a small object, as this is a hidden cam, it is only activated by pressing the right direction button. The RoverCam gives an extra information on the situation and maps of the area. - Track and
