If you are a platforming fan and platform game fan, you can make it some nice platforming with strategy! Tears of Avia Review: Tears of Avia Review: Tears of Avia is an action platformer, with platforming, some combat and lots of exploration. You control Chantelle (the main character), a 12 year old with a back story as told to her by the songs that play when you walk. Chantelle walks, runs and jumps through the beautiful, diverse, platforming world of Avia in order to find out who she is. In the words of the game: "Chantelle is a 12 year old girl who will travel across a beautiful, expansive, vibrant world with a band of companions who tell her their stories as she listens. Chantelle will meet new friends, make new enemies, explore new places, challenge her enemies and find all kinds of things in this curious, beautiful and compelling world that she belongs to!" You begin the game without knowing who Chantelle is, whilst having no recollection of Chantelle's life to date. However, your original selves and the other residents of the city of Avia grow old and die. Chantelle's parents arrive and urge her to return to her world in their time, which is an agonising decision to make. But when you are told your story by the world around you, you may find that there are questions you need to answer, and that your life's role in the world is more important than you knew. At its heart, Tears of Avia is a story about finding yourself, finding out who you are, learning about yourself and your world and, perhaps, being truly happy for the first time. It's a wonderfully emotional tale of deep introspection

Plot In the town of Shinden, routine life is lived side by side with sorcery. Witches take care of the everyday life of humans while wizards are tasked with achieving eternal youth. Most people live with the mindset that witchcraft and magic are synonymous, and that witches are divinely spiritual beings. Goto is a 15-year-old student who believes in logic, common sense, and science, and is uninterested in supernatural matters. Despite the fact that he studies witchcraft, he can perform sorcery himself and can easily sense the presence of supernatural entities if present. Without the effects of magic, he craves for rational explanation for his surroundings, along with all magical charms and other dangerous things. Due to this great sense of intuition, he frequently has to circumvent curses and other forms of paranormal events. While Goto is content living his life without trying to learn more about witchcraft, he becomes intrigued when he is forced to work as an assistant to Narumi Uchida, a young witch at the city's witch academy, upon his request. Later, Goto is sent back to the academy to enter the school, as the charismatic wizardist, Mami Yamaguchi, has yet to accept him as a wizard. During the apprentice training at the academy, Goto makes friends with Ami Mizuno, a 24-year-old girl who is a self-proclaimed magical girl, helping her to rescue her from witchcraft tricks performed by the likes of several female students. Goto also encounters Uchida, who had come to Shinden to perform at the witch's festival, and is eventually forced to save the life of a 12-year-old girl named Asahina Avia, who was dragged to a nearby lake by a malevolent entity.
