## Native Instruments FM8 V1.4.0 Update-R2R [deepstatus] Utorrent

; Â· Newly updated keygen with fresh. Skin or skin. Coat; Native Instruments FM8 Native Instruments FM8 v1.4.0 Update-R2R [deepstatus] utorrentQ: WPF Mvvm Light: Trouble binding to property change of ListView I have a ListView whose ItemsSource is bound to an ObservableCollection. I have a ComboBox bound to another property of the model and the SelectedItem of that ComboBox is bound to the SelectedItem of the ListView. I expected, when I change the SelectedItem of the ComboBox, that the SelectedItem of the ListView changes accordingly. When I change the SelectedItem of the ComboBox, I see changes in the UI for the item in the ListView. When I change the item in the ListView, however, I do not see changes for the item in the ComboBox. I have set the DataContext of the window to my ViewModel: And have tried various binding statements: Any idea why this isn't working? A: The ComboBox is a ContentControl and as such, only binds to the Content (i.e. the ComboBox.Content). The Binding for the SelectedItem of the ComboBox is actually what's bound to the ComboBox's Content, so it's not what you want. You need to set the Binding in order to bind the SelectedItem. Try something like this: 6d1f23a050
