Where is the Sound Engine in BGE? - Guild Wars 2 Community Technical Support (GTS) Forum I am a general idea person. I have a background of working with RPG Maker stuff. I have a character sheet and a rough story outline. It's not necessary. For your convenience, I have included the basic information for the developer workshops you will most likely be involved with, including how much all of the different sections cost and how you may be getting paid (salary/per-hour/amount-per-thousand-pixels). Please check their websites for specific fees and/or workshop times, and any additional information you may require. Consultants at the Games Developers Association (GDA) Web site are available 24 hours a day to answer any questions you may have about game development. If you do not live in the United States, your local university should also be able to provide assistance. Most important, don't hold back! Devs are a busy bunch, so please don't get discouraged if you're not being contacted immediately. Just ask your questions and keep at it! City State Entertainment Website; Blogs; Facebook; Twitter; Youtube; Soundcloud. Não tem como fazer download... Navegar na web If you prefer, you can jump straight to the individual sections of the workshop. If you want to know about gigabit Ethernet and cables in general, skip ahead to the Ethernet section. If you want to know about networking (sending and receiving traffic over a network), skip ahead to the Networking section. If you want to know about audio, skip ahead to the Audio section. If you want to know about Windows Media Center, skip ahead to the Windows Media Center section. If you want to know about audio editing, skip ahead to the Audio Editing section. Information about Internet security and firewalls is not included because it is not a specific area of game development. If you don't live in the United States, it's probably best to skip the Community part and work on a game that you have the passion for. If you do live in the United States, ask a local game development company what they charge. If you have any trouble finding your answer, you can check out the Internet Resources section for a list of official and unofficial websites with tips, documentation, and links to answers to common questions. 2.
