
Crack [Extra Quality] Fantasy Grounds II V2.0.12 Extras [RH]

The Browns traded away the top-ranked pass catcher from last year, and in return Cleveland management essentially gave the green light to Baker Mayfield to run whatever plays he wants on the league's fourth-worst defense. Baker promptly took Cleveland on a fantasy-worthy journey through a decade of pass-first, spread offense run-mangling. Upon landing in Hollywood, Baker called for a play-action pass on nearly 10 percent of his passing plays, putting him at the very top of the NFL. Baker's run-pass ratio was positive in half of Cleveland's games, and his average pass play was much longer than the average. While his QB Rating dipped slightly (below 100 in four of his last six games), his MVP-caliber play was able to keep the story completely away from his disastrous pass protection. Baker's heavy-handed draw of Antonio Callaway cost him a chance to win the MVP in 2018, but if you look at the measure of quantity over quality, Baker was very good. Combine the league's third-best rushing attack with the best stat line among quarterbacks in 2018, and you're left with a fantasy-friendly, QB1-caliber product. Wide Receiver: There is a new kid on the Atlanta offense block and boy, is he one of my favorite players to draft this year. Since they went into the season with no established veteran WR1, Julio Jones and Calvin Ridley took on much of the blame for the offense's recent lack of productivity. But both have been productive in their short time with the Falcons. Even though Ridley is still finding himself as a rookie, the Falcons prefer to play matchups, and it wouldn't be shocking if the Falcons turn to the rookie more frequently in 2019. It's not what rookie WRs do that gets them fantasy production, but the amount of attention the veteran gets in order to spring their rookie. In any case, Atlanta is throwing the ball as much as they have the past several seasons, and both Jones and Ridley will see the bulk of the targets this season.
