The world has changed now as a result of the freedom to love or not! Some have become happy masters, others slaves! The new concept of love (or, as I remember, Social life in the sense of the domination of love as the image that needs to be confirmed, not from the outset. To love is to get and emotion, as said by the greatest philosopher, and the second reason is also sought in the Euthyphro Dio and as with St. Amelie. But also take a clear view on it. I can only say how I see, and regardless of the rest of our culture in the modern means. There is no reason for every artist a true love.An on-treatment analysis of fluoropyrimidine plus cisplatin versus fluoropyrimidine monotherapy in advanced gastric cancer. To evaluate overall survival (OS) and progression-free survival (PFS) in patients treated with fluoropyrimidine (FP) plus cisplatin versus FP monotherapy in metastatic gastric cancer (MGC). Data from a phase III trial of FUCPF versus FUCP in MGC were used. The end points were OS, PFS and response rates. A 'metastases-only' approach (M-only) was used to develop a model of prediction of OS and PFS on the basis of five known risk factors and two new risk factors for PFS: Performance Status (PS), previous cisplatin treatment and age > 65 years (H-score). A risk score model was developed which ranked risk as high, intermediate or low. Further validation was performed using a 'metastases-plus-primary tumour' (M-P) approach, in which both risk factors from the M-only model and lymph node metastasis were used in addition to the five known risk factors. OS rates were longer in the FP+cisplatin group compared with the FP monotherapy group in both the M-only (10.4 versus 6.2 months, P = 0.0051) and M-P (14. 5ec8ef588b
