## Super Contra Nes 30 Lives

# Download

On the title screen p, press the RIGHT, LEFT, DOWN, UP, A and B buttons. This will give you thirty extra lives, but only if you play the Japanese version.. If you have the original version, you're safe - and so am I. So if you have already completed the game, you can just use the extra lives at the beginning of the game, as I did. If you are in the game and your character dies, just start the game and the moment your character dies, use the B button on your gamepad to bring him back to life. If you are just playing the game and the character dies, just press the UP button on your controller and then start the game.
