A: For the most part, it depends on what a and b are. For example, for item in list1: if a == item and not b == item: print("Found a") OMG! December! Thursday, January 26, 2010 Well I've had a long week. Was up until the early hours of the morning with the kids, when I got home the kids were ready for bed, so they stayed in their rooms and I went and put Tumble's face wash away. I had a huge shit to take out. Aauuggghhh! That little thing is a right torture sometimes. I ended up getting it out in the end, but I was ruing the fact that I'd pushed myself to the point where all I could do was go to the toilet or have a bath. I'm sure it's not the end of the world, but it was bloody uncomfortable! So now I've had another late night dealing with all that. Not a lot of washing up done this week, just cooking, not
